

# VOID FILL SYSTEMS - LOCKED AIR

Making things simpler for e-commerce shipping

## THE LATEST TECHNOLOGY IN AIR VOID FILL

Locked Air pillows provide a shock absorbing layer for your products, ensuring protection in transit. The pillows fill gaps and lock products securely together, preventing them moving around so they arrive in pristine condition.

### Other benefits are:

- Puncture Resistant Film
- Eco-Friendly - The pillows are 2% plastic and 98% air
- High Speed Machines
- Cost Effective
- User-Friendly Controls

# LOCKED AIR VOID FILL

Air pillow void fill machines

## Description:

Locked Air pillows are perfect for cushioning products on all sides to prevent impact damage, as well as filling space at the top of cartons to prevent movement and crushing.

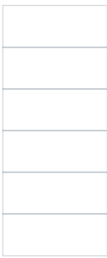

The Locked Air machines compact size make them ideal for any table top work station, and their user-friendly interface means that void fill is only a click away.
